MORE PALESTINIANS ARE GETTING KILLED

Since the First Intifada, nearly seven times as many Palestinians have been killed by Israelis than Israelis killed by Palestinians, and this disparity is growing over time.

How October 7 has changed us all — and what it signals for our struggle

It can be hard to recognize a historic moment while living through it, but this time in Israel-Palestine, it's plain for all to see. Here's what we know, and what we can surmise, one month on.

October 16th, 2023

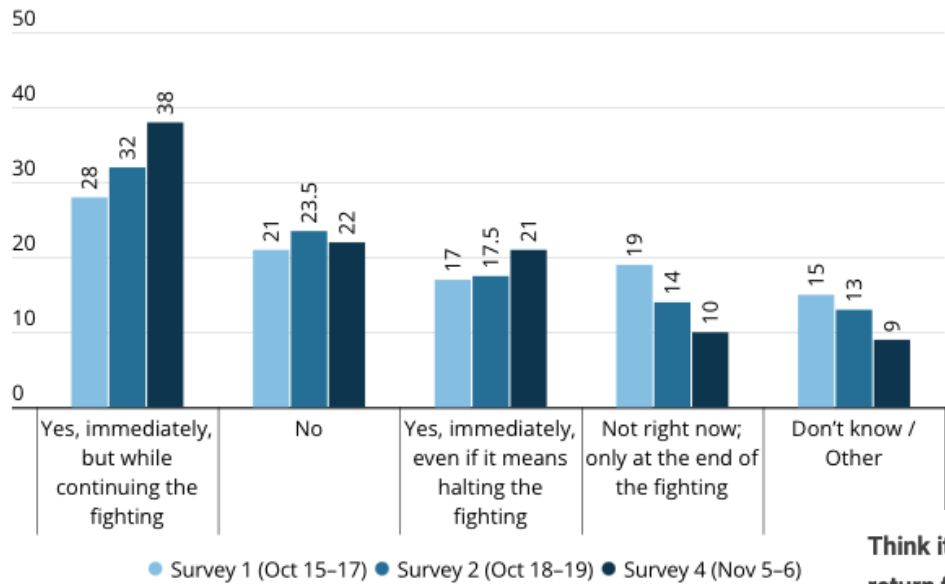

Statement on Behalf of Israel-based Progressives and Peace Activists Regarding Debates over Recent Events in Our Region:

We, Israel-based academics, thought leaders and progressive activists committed to peace, equality, justice, and human rights, are deeply pained and shocked by the recent events in our region. **We are also deeply concerned by the inadequate response from certain American and European progressives regarding the targeting of Israeli civilians by Hamas, a response which reflects a disturbing trend in the global left's political culture.**

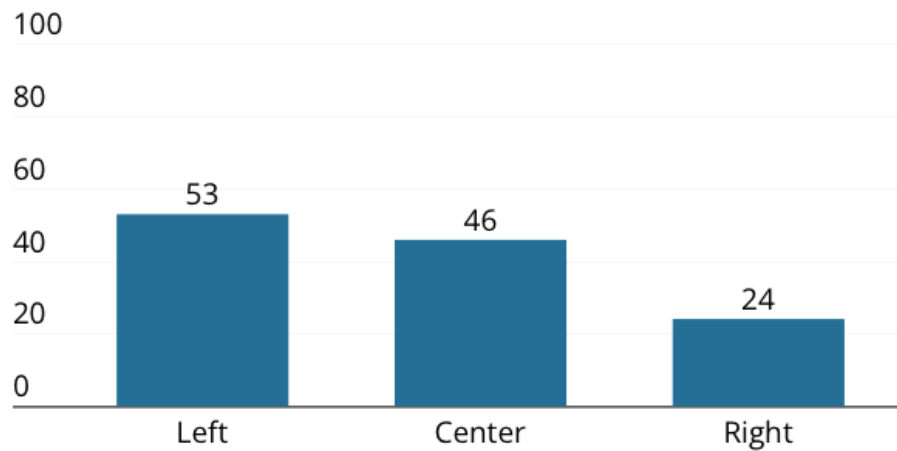

On October 7, 2023, Hamas launched an unprecedented attack that included mass murder of innocent civilians in their homes, indiscriminate violence towards women, the elderly, and children, and mass kidnappings of Israeli citizens. Entire families were wiped out in this carnage, whole communities were reduced to ashes, bodies were maimed, infants were massacred. It is impossible to overstate the damage caused by these events, both on a personal and a collective level. The traumatizing events of that Saturday in October will leave a lasting mark on our hearts and memories.

Should the State of Israel conduct negotiations with Hamas for the release of the kidnapped Israelis in return for the release of Hamas prisoners from Israeli prisons? (total sample; %)

Think it is right for Israel to agree to a deal for the release of the hostages in return for releasing all Palestinian prisoners and halting the fighting in Gaza (Jewish sample, by political orientation; %)

On a scale from 1 = not at all important to 5 = very important, rate the importance of each of the following goals for the war as 4 or 5 (Jewish sample and Arab sample; %)

Police Broke into Hadash-CPI Nazareth Branch Amid Crackdown on Anti-War Protesters

CPI / November 11, 2023

Police raided Hadash and Communist Party of Israel (CPI) branch office in Nazareth Friday evening, tearing down political posters and spray-painting over murals. "The Ben Gvir police continues its political persecution and attempts to intimidate and silence the Arab public and other forces opposing the war," Hadash says in a statement. "We will not put up with these provocations. We will continue to lead the joint Arab-Jewish struggle against fascism, war and persecution," Hadash says.

Hundreds of people have joined us tonight for our emergency conference for Jewish-Arab solidarity. We're here to say, loud and clear: they won't break us. Our fates are tied, and our future is shared.

6. Israel must tell the Saudis and the Americans that it doesn't dismiss the option of separating from the Palestinians. No one is asking us to set up a Palestinian state tomorrow, or to yield one clod of earth. The whole world is asking us to say that if the Palestinians prove to us that they're as docile as the Swiss, as peace-loving as the Dutch, or calm as the Australians, we'll be ready to consider parting ways from them. This is a process that will take years, and the burden of proof will be on them.

Qu'on l'approuve ou le désapprouve, ne pas exagérer les différences entre le chef de l'opposition Y.Lapid et B.Netanyahou à ce sujet. Il a exclu ici de démanteler les colonies illégales.
